May 23	<b>Evidence-Based Eye Care</b>	Yumori/WLAVAMC

## OPTOMETRIC CLINICAL SEMINARS

Conducted as a series of discussions, lectures, demonstrations, and workshops by members of the residency faculty, staff, and invited guest speakers, this program is designed to present the essential core of optometric knowledge in a manner conducive to learning and retention. To achieve this objective, each of the sections of the course curriculum contains related aspects of basic and clinical science and is accompanied by a self-assessment procedure. The latter element enables the course participants to evaluate knowledge and problem-solving ability during the learning process.

As an educational program, the Optometric Clinical Seminars serves primarily as an adjunct to optometric residency training.

All SCCO-affiliated Residents are invited to attend the Seminars. Written approval must be received from the Chief, Optometry Department (West Los Angeles) and Chief of the respective facility's optometry program.

The program runs four hours (1 - 5 PM) unless otherwise specified.

*Course faculty subject to change.*

### Faculty

David C. Bright, O.D.	Krista Martin, O.D.
Steven Ferrucci, O.D.	John May, O.D.
Pauline F. Ilsen, O.D.	Rashmi Mullur, M.D.
Chang Kim, O.D.	Judy Tong, O.D.
Teresa Lim, O.D.	Jasmine Yumori, O.D.
Harue Marsden, O.D.
